A HISTORICAL SPEECH.

With Which Cromwell Turned Parliament into the Streets.

The speech with which Oliver Cromwell turned Parliament out of doors in 1653 has come to light through the researches of Dr. Wolfgang, Michael, and there is strong evidence that it is authentic. It was this: "It is high time for me to put an end to your sitting in this place, which ye have dishonored by your practice of every vice. Ye are a factious crew, and chronic idlers of a government. Ye are a pack of mercenary wretches, and would-like to sell your country for a mess of pottage, and like Judas—betray your God for a few pieces of money. Is there a single virtue now sitting here? Is there one who do not possess? Ye have no more religion than my horse. Gold is your God. Which of you have not bartered away your conscience for bribes? Is there a man among you that hath the least care for the good of the Commonwealth? Ye sordid prostitutes! have ye not defiled this sacred place, and turned the House of Commons into a den of thieves? By your immoral principles and wicked practices ye are grown intolerably odious to the whole nation. You, who were deputed here by the people to get their grievances redressed, are yourselves become their greatest grievance. Your country, therefore, calls upon me to cleanse this Augean stable by putting a final period to your iniquitous proceedings in this house, and which, by God's help, and the strength He hath given me, I am now come to do. I command you, therefore, upon peril of your lives, to depart immediately out of this place. Get you out! Make haste! Ye venal slaves, begone! So! Take away that shining bauble there, and look up the door."

A BUSINESS OPENING.

For a Few Good American Dentists.

Here is a chance for dentists. Dr. Chester, a medical missionary and a brother-in-law of Bishop Whitaker of Philadelphia, says: "There is a big chance in Madras and Bombay for a number of bright skillful American dentists. Madras is a city of 300,000 population and has not a single American dentist there. I know people who travel from there to Bombay, nearly 1,000 miles, to have a tooth filled. There is only one good dentist in Bombay and he refuses to fill teeth with gold, using a sort of cement that is not lasting. He charges \$2.50 to pull a tooth. A few good American dentists could go over there now and at once step into a big business."

Badly Shaken Up.

At a shoe factory in Lynn a thief entered a room at noonday to steal clothing. He got caught in a shaft and was whirled around at the rate of ninety times per minute for a quarter of an hour before being discovered. When released he looked a little out of plumb, but had nothing to say and was permitted to go.

A New Brunswick Bank Defaulter.

J. McD. Comer, agent of the People's Bank at Edmundston N. B., has absconded, and the London Guarantee Company has had a warrant issued for his arrest. The books are being examined to determine the amount of his shortage.

Democratic Discipline.

An old man named Hosea was whipped by White Caps near Washington, Ind., presumably for aiding in the prosecution of a Democrat for election fraud.

Eupespy.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee the Electric Bitters, if used according to directions and the use persisted in will bring you good digestion, and out Eupespy, and install instead Eupespy. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c and 25c per bottle by W. F. Pinner drugist.

Elder B. F. Kinsinger of Gettysburg, Pennsylvania, says: "Abiethe cured me of Rheumatism, Dyspepsia and kidney trouble, after other remedies had failed. I used it both internally and externally. The genuine and original bear the fac-simile signature of D. F. FAYNE. Price 50 cents. Sold by Wm. Pinner."

When nature falters and requires help, recruit her enfeebled energies with Dr. J. H. McLean's strengthening Cordial and Blood Purifier. 50c per bottle.

Congressional Matters.

WASHINGTON, April 22.—Candler of Massachusetts moved that the House concur in the Senate amendment to the World's Fair bill. This being agreed to, the bill was finally passed, and will be sent to the President.

The House then went into Committee of the Whole on the Legislative Appropriation bill.

SENATE.

Cockrell offered a resolution, which was agreed to, directing that the Superintendent of the Census communicate to the Senate the forms of the rules and regulations adopted by him for obtaining statistics as to farm mortgages.

Plumb's resolution for an increase of the Treasury purchase and coinage of silver was then presented.

Eustis moved, as an addition to it, a further resolution that the free coinage of silver is essential to a sound financial policy, and is demanded by all the great interests of the country, and that, therefore, all laws limiting the coinage of silver ought to be repealed.

Plumb consented to let the resolution lie over to give Mitchell an opportunity to address the Senate.

The Senate Committee on Agriculture and Forestry to-day had under consideration Senator Vance's bill to provide for a system of warehouses for the storage of produce throughout the country, to be operated by the Government, which is to issue notes upon the deposits of grain therein.

Colonel Polk, President of the National Farmers' Alliance, read a long argument in support of the measure, which he said was formulated by a committee appointed by a convention of the National Farmers' alliance and Industrial Alliance, held at St. Louis on December 3, 1889.

He sketched the decline in agricultural values in the face of the marvelous progress and development of other industries and interests during the past two decades, and insisted that something should be done for the farmer.

He charged the fault upon the financial system of the Government, which resulted in high-priced money and low-priced products. The remedy, Colonel Polk suggested, was three fold:

First—To restore silver to its dignity and place as a money metal with all the rights of coinage and all the qualities of legal tender which gold possesses.

Second—To issue sufficient amounts of currency direct to the people, at a low rate of interest, to meet the legitimate demands of the business of the country, and which shall be legal tender for all debts, both public and private.

Third—To secure to such issues, equal dignity with the money metals, by basing it on real, tangible, substantial values.

Col. Polk was followed by Dr. C. W. McCune, Chairman of the National Committee of Legislation of the Alliance, who addressed himself more particularly to the merits and details of the system of warehouses, as outlined in the bill. He asserted that merchandise thus stored would not deteriorate below the market standard; that the system had proved feasible and practicable in California, where the Grangers' Bank in 1887 loaned \$3,000,000 on the certificates issued to the farmers on wheat deposited in the warehouses owned and controlled by them.

Silver men are in good spirits this morning over the result of the Republican House caucus last night and claim a substantial victory. The feeling ran pretty high at times.

The House Committee on Judiciary has ordered a favorable report on the Senate bill to prohibit trusts.

Will Mainstay Peace.
By Cable and Associated Press.]

BREMEN, April 22.—Emperor William took dinner yesterday on the steamer Fulda. He made a speech, in which he asked Germans to repose confidence in his determination to maintain peace. The press ought to bear in mind the Imperial words, which should not be twisted and misconstrued. His efforts to foster trade and commerce is based on the knowledge that peace alone guarantees prosperity.

A Remarkable Fish.

By Associated Press.]
JACKSONVILLE (Fla.), April 22.—W. W. Stanton, master of the schooner Addie Schaffer, now lying at the Market-house dock, while fishing for bass 300 miles off St. Augustine, drew in his line and found entangled therein a peculiar fish. The strange creature is about six feet in length, pure white and scaleless. The head and face are wonderfully human in shape and features. The shoulders are well outlined and very much resemble those of a woman. The bosom is well defined and shows considerable development, while the hips and abdomen continue the human appearance. There are fourippers, two of which are placed at the lower termination of the body, and give one an impression that nature made an effort to supply the strange creature with lower limbs. Mr. Stanton confesses quite a fright on the first sight of his queer prize, which, on being drawn on board, gave utterance to a low, moaning cry, which might have been mistaken for sobbing. The object lived two days after being taken. It is now in a large jar of alcohol.

Poverty and Conceit.

A noted writer says: "I have heard a great many things said in my time against poverty, but never till the other day, when a clever woman made the suggestion, did it occur to me that poverty tends to make a man conceited. Her argument was as follows: A poor man has to earn his living, and the mere fact that he does so leads him to think highly of himself; whereas, the rich man, who lives on the interest of money accumulated originally by an ancestor, near or remote, makes no living, is not even certain that he could make one, and, consequently remains in an humble, or, at least, in a modest state of mind."

A Gentleman in Overalls.

A Chicago paper says: The street car was crowded with men. The plain but business-like young woman who had entered it stood for a moment holding on to a strap, when a man in blue jeans overalls at the other end of the car rose and offered her a seat. "No, thank you," she said, as she jerked the bell rope. "I don't wish to sit down. I am merely compiling statistics for a special article in next Sunday's paper. I find there is one gentleman in car No. 640." The business-like young woman made a memorandum in her reporter's note-book and stepped briskly off the car.

An Ice War.

The ice syndicate is being fought in Brooklyn by the Independent Ice-dealers' Association (composed of forty dealers, with 100 wagons), which claims to have control of 350,000 tons of ice, and promises to supply families with "a good chunk daily for from 50 to 75 cents a week."

Every Meal is a Trial.

To the dyspeptic! Flatulence, heartburn, oppressive fullness of the stomach, are the inevitable sequences of his use of the knife and fork. To say of him that he gratifies the craving of appetite, would be genuine satire. He only appeases them. Is relief attainable? Certainly, and by the use of a pleasant as well as thorough remedy. Hostetter's Stomach Bitters. Will it cure immediately? Certainly not—it does not effect miracles. But it does give prompt and agreeable relief, and will, if persisted in, produce an ultimate cure. Not only does it impart relief to the food, but promotes its conversion by the stomach into rich, health and strength-sustaining blood. Superstition, nervousness, mental depression, and quiet slumber, produced by interruption of the digestive functions, are also remedied by it. It is the finest preventive and curative of malarial disorders, and relieves constipation, rheumatism, kidney and bladder ailments, and liver complaints.

Will Sue the Government.

WASHINGTON, April 21.—At the end of June the Government will be indebted to the Western Union Telegraph Company for the entire year of telegraph service. The telegraph company has refused to accept the rate fixed by Attorney-General Wamamaker and the latter has declined to make any further modification. Wamamaker's rate is ten cents for ten words for distances of 300 miles and less, and a proportionately increase for greater distances. The Government business done by the telegraph company is said to amount to \$200,000 annually.

The company is still continuing to take all Government messages, but ever since last June they have refused to receive any pay on the basis of the new rates. It is said that the company proposes to institute a suit to determine the legal question involved. It is denied that the Government has the right to fix a rate which is not a just remuneration for services rendered, and it is claimed that the proposed rate is of this character. The company will, therefore, refuse to accept any money for telegraph service until the courts have rendered a decision. No suit, however, has as yet been instituted, and the Government officials are wondering when the Telegraph Company propose to take action.

The McCalla Court-Martial.

By Associated Press.]
NEW YORK, April 22.—The Court-martial of Commander McCalla of the United States steamship Enterprise began at noon to-day at the Brooklyn Navy Yard. The charges are the ones reported by the recent Court of Inquiry, and include severe, cruel treatment and violations of the articles for the government of the navy.

Rear-Admiral David Harmony is President of the Court and Lieutenant Perry Garst Judge Advocate, assisted by Lieutenant W. H. Stayton of the Marine Corps.

The Padrone System.

By Associated Press.]
NEW YORK, April 22.—The subcommittee of the joint Congressional Committee on Immigration continued its inquiry here to-day.

T. B. McGuire of the Knights of Labor, who was further examined, said the contract labor law does work satisfactorily, owing to the neglect of the District Attorney to prosecute the cases brought to his attention. Immigration is being stimulated by the steamship companies by misrepresentation. McGuire swore that the padrone system is in operation in New York; that the padrones got places for Italian immigrants in public works by paying the bosses, and, in return, charging the men for getting them employment.

Riotous Strikers.

By Associated Press.]
CHICAGO, April 22.—The striking carpenters this morning attacked the non-union men at work, and handled a police sergeant, who interfered, roughly. Finally fifty of the rioters were arrested.

A police order was issued this morning closing all the pool rooms in the city, beginning at 2 o'clock this afternoon.

Needed as a Witness.

By Associated Press.]
ST. LOUIS, April 22.—The Chinese restriction act cuts an important figure in a murder trial pending in the criminal court of this city. The case is that of William Muller and William Pinkston, colored, charged with the murder of a Chinaman named Ah Jim last fall. Ah Jim's partner, Ah Quong, subsequently went to China, where he married, and on returning with his wife to this country, the authorities refused to let the woman land, and Ah Quong says he proposes to go back with her to China. He is needed here to identify the men on trial, as he was present when Ah Jim was killed.

A Sharp Conflict.

By Associated Press.]
PARIS, April 22.—Le Temps says that a French force of 350 men made a reconnaissance of the position held by the Dahomians, seven kilometres from Porto Novo, and subsequently attacked the place. The French force was compelled to retreat to Porto Novo after thirty French soldiers and twenty natives were killed or wounded. The Dahomian loss was heavy.

THE GERMAN EMPEROR.

His Quickness of Appreciation

Said To Be Remarkable.

The London correspondent of the Liverpool Mercury, who probably sums up the opinions of the party of the Prince of Wales and other Englishmen who have recently come into contact with the German Emperor, writes as follows concerning the young ruler: "Everyone admires the extreme ability of the young Kaiser. His quickness of appreciation, his astuteness, his grasp of a subject, are said to be truly remarkable. He is quick at seizing a point, quick also in making up his mind, very ready in insisting upon his desire, and demands great promptitude in the execution of his wishes. The way in which he pressed forward the Labor Conference to its decision surprised other diplomats. He seems, too, to be very resolute in all that he undertakes." It is questioned, however, whether he has not off-setting faults and whether he has that stability which enables statesmanship to look many years ahead for the realization of its aims.

How He Managed It.

"In the Spring of 1885," writes Mr. Earnest Marx, Sioux Falls, Dakota, under date of March 3, 1890, "I was employed in cutting wood on a small estate in Iowa. When I began work the stream was frozen, but it began thawing, and I was obliged to work in wet shoes half a day. This brought on severe rheumatic pains in my limbs and swelling in my toes. I suffered till December of that year. I used two bottles of St. Saviour's, which entirely cured me, for which I am very thankful."

BETTER THAN GOLD.

RESTORED HER HEALTH.

For 25 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. & S. S. It improved me from the start, and after taking several bottles, restored my health as far as I could hope for at my age, which is now seventy-five years.

5 O'CLOCK EDITION.

It is reported from Borneo that a system of coolie slavery prevails there under English rule. The statement is treated as something new. The English planters in Queensland virtually enslave the natives of the Pacific Islands under the name of contract labor, and English capital is said to be behind the infamous slave trade of the east coast of Africa. The British Government may be endeavoring to put put down slavery and the slave trade, but there are plenty of British subjects who have no scruples about getting labor on any terms advantageous to themselves.

Bismarck's resolution to retain his connection with the German press and to accept a candidature for the Reichstag bodes ill for Von Caprivi, the ambitious man who is striving to fill the ex-Chancellor's boots. It will be found that when Bismarck speaks or makes his views known in any manner both the Emperor and Von Caprivi will hear what he has to say. Possibly they may have the good sense to be guided by it. Once let Germany be entangled in any serious foreign complication and the need for the master intellect of Bismarck will be a pressing one.

The enthusiasm of New York having cooled in the matter of the erection of a statue to General Grant, a bill has been introduced in Congress appropriating \$100,000 for the erection of a memorial to the memory of the distinguished soldier, and it is provided that it shall be located in the city of Washington. It is to be hoped that the bill will pass. The capitol of the nation is the proper place for the monument, and it is eminently proper that the nation, from its plethoric treasury, should foot the bill.

The Democrats are figuring upon the next election, and claim they will have a majority of 88 in the next House of Representatives. This, says the Enterprise, is the favorite season for counting chickens before they are hatched, and the Democrats have simply fallen into the general habit of counting all the eggs as sound and good. But nobody ever bets on a Democratic egg.

It is announced that the Risdon Iron Works will bid on two of the new vessels to be built for the navy. That, says the Bulletin, will be one step in the direction of making San Francisco to the Pacific what the Clyde is to Scotland and the Delaware to the Eastern States.

It is rumored in Paris that a new Panama Canal Company will be formed to begin where the old corporation left off. The report of the Commission will be published in about two weeks, and probably the foundation of a new company will depend upon that.

According to an editorial contained in a recent number of the Silver State, about all the difference the editor of that paper is able to discern between the Mills and McKinley Tariff bills is that the former put wool and the latter put sugar on the free list.

Scrofula Sores.
"My adopted boy, aged 14 years, suffered terribly from scrofula sores on his leg, which spread till they at one time formed one great sore from the calf of his leg up to his thigh, partially covered with scab, and discharging matter continually. The muscles became contracted so that his leg was drawn up and he could hardly walk. We tried everything we could hear of, without success, until we began giving him Hood's Sarsaparilla. In just a month, after he had taken two-thirds of a bottle, the sores entirely healed, his leg is perfectly straight, and he

JOTTINGS.

All the seasonable vegetables at Leadbetter's. Try his brand of canned corn; there is none better.

J. J. Becker's Chicago saloon is a busy place about noon, made so by business men who go there for their midday lunches.

Richard Herz's stock of watches, jewelry and silverware is as fine as you will find in cities with ten times the population of Reno.

C. J. Brookins carries the most complete line of musical instruments to be found on this side of the mountains; also the best guitar, violin and banjo strings.

Steel and rubber erasers, every style of steel and fountain pen, writing and copying inks, melleage and both pen and pencil tablets at C. A. Thurston's news depot.

Strangers coming into the town are not long in learning that a well cooked and scientifically served meal can be had at the Arcade any hour of the day or night.

The Riverside Hotel is considered as fine a family resort as can be found anywhere, and it never has anything else so long as W. R. Chamberlain is its landlord.

As the weather becomes warmer, J. P. Aiken's dry slabs are just the kind of wood for your kitchen stove. Also the best hard coal at \$12.50 per ton.

By paying cash for his groceries, W. T. Craig is able to supply his patrons with the best at reasonable prices, as he is not obliged to pay interest to the wholesale dealers.

CATARH.

Catarhal Deafness—Hay Fever A New Home Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of three cents in postage. Write to A. H. Dixon & Son, 337 and 339 West King Street, Toronto, Canada.—Christian Advocate.

Sufferers from Catarhal troubles should carefully read the above.

On a recent visit to Iowa, Mr. K Dalton of Luray, Russell Co., Kansas, called at the laboratory of Chamberlain & Co., Des Moines, to show them his six year old boy, whose life has been saved by Chamberlain's Cough Remedy; it having cured him of a very severe attack of croup. Mr. Dalton is certain that it saved his boy's life and is enthusiastic in his praise of the Remedy. He says it has an excellent reputation in his vicinity; that farmers come fifteen miles to his store for it and that many of them, like himself, are never without it in their homes. For sale by Shoemaker & Co.

A Woman of Paper saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle. It helped her, she bought a large bottle, it helped her more, bought an other and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For further particulars send stamp to W. H. Cole, druggist, P. O. Smith. Trial bottles of this wonderful life saving free at W. F. Finner's drug store.

A Sure Cure for Piles.

Itching Piles are known by moles, like perspiration causing intense itching when warm. This form, as well as blind, bleeding and protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on the parts affected, absorbs itching, itching and effects a permanent cure. Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by W. F. Finner.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

FREE COINAGE OR FIGHT!

Is the Platform of ex-Congressman Fitch—An Interview.

Our townsman, ex-Congressman Fitch, who returned home last Sunday after an absence of several months in the East, where he has been engaged in the work of the National Silver Committee, was interviewed by a Gazette reporter this morning. The gentleman was found in his office in the National Bank building, busily engaged in sorting papers which had accumulated during his absence. In response to the questions of the reporter, Mr. Fitch replied:

I was in Washington during January and February, helping to interview Senators and Congressmen on the silver question. I found that there was then really no organized opposition to us on the part of the gold men, but there was an immense amount of indifference to overcome and ignorance to enlighten. An old friend of mine, and a leading member of the House of Representatives, said to me: "Come over to my room, old boy, and tell me all about it. I have never looked into it, and we never hear the speeches, you know; and, to tell you the truth, beyond a vague idea that you silver miners are trying to make the United States pay one dollar for seventy-three cents' worth of silver, I don't know the first thing about it." I left that gentleman after half an hour's conversation on the highway to conversion, and I have since learned that he is out openly for free coinage. No, it was not due to any especially felicitous presentation of the subject by me. It was the power of the truth working upon an unprejudiced and intelligent mind. We have the best of the argument all the time, and all discussions are to our advantage.

It was deemed best by the committee to attempt the task of enlightening the constituencies of Congressmen by means of public meetings, and General Warner of Ohio and myself were sent forth for this purpose. We spoke together in New York and Cleveland. From Chicago I went alone through the South. The threatened inundation prevented the New Orleans meeting, but we had good meetings at Nashville and Birmingham. I closed at Terra Haute and Indianapolis. I found everywhere an awakening of interest on the question, and everywhere the press, both Democratic and Republican, gave full reports and commendatory notices of the cause. Since my return to the coast I have received dozens of letters forwarded from the East, containing urgent invitations to address free coinage meetings all over the South and West. I suppose I could be kept busy at this sort of thing for the rest of the year unless Congress passes a free coinage bill. But I feel I have done my share of the work for the present, as I have not asked or received one cent as compensation.

You inquire as to the probable action of Congress. Two weeks ago our silver cause was in good shape; now it does not look so well. I think that our friends in Congress make a mistake in proposing to accept either the Windom or the Jones bill, because anything less than free coinage will not give general relief. Increased coinage may advance the value of silver—though I am not sure of that. But while that would help the silver producers, it would not help the farmers. A permanent increase in the value of wheat can only be secured by an advance in the value of silver in London to the old standard of \$1.29 per ounce, and this, in my opinion, can only be brought about by free coinage. It is the agitation which commenced at the St. Louis convention and the expectation of free coinage resulting from that agitation which has advanced silver from 92 to 102, and if it shall become apparent that we are not to have free coinage, but only increased coinage, silver will, I fear, drop back to its former price.

Free coinage could be passed through both Houses to-day by Western and Southern votes—Democratic and Republican—but a vote is not pressed by the Republicans who control the course of business, because of the apprehension that Harrison would veto a free coinage law, and our people are hoping to frame a compromise measure that the White House will accept. I do not believe in this policy. It would be better, in my judgment, to make the fight for free coinage and let Harrison go back on the Chicago platform and veto the bill if he dares. It may be said that "half a loaf is better than no bread," but we need not go without bread, for in the event of a veto he could still pass the Jones bill or the amended Windom bill or some other compromise measure.

As the contest now stands the Democrats, who are not unskillful tacticians, may, when the Jones bill or the Windom bill comes up for action, offer a substitute proposing free coinage. That will place Republican Senators and Congressmen upon the horns of a dilemma. If they vote for free coinage and carry it, they will encounter a veto, and a veto by a Republican legislator will furnish Democrats with valuable campaign material in the Western States this fall, though I do not think it would amount to much in Nevada, where the situation is thoroughly understood and where there is no opposition to free coinage. But if our Senators and Congressmen shall for any reason vote for a compromise measure and against free coinage, they will never be able to satisfactorily explain such a position. Between the two evils I believe they will be wise enough to choose the lesser one, stand firm for free coinage and let the consequences—veto or otherwise—take care of themselves.

I am empowered by the National Silver Committee, as its Vice-President and as a member of the committee from this State, to call a State convention of the friends of free coinage if he deemed advisable to do so. If I find any general demand for such a convention I will issue such a call—not a convention to nominate officers or organize a party, for our policy is to fight within the lines of existing organizations, but a convention for consultation and the expression of opinion to guide and strengthen our Senators and Representatives.

HUMBOLDT ITEMS.

The Silver State says: The Humboldt has now attained the highest point reached this Spring, or in fact for years. The rain and warm water is sending it up.

J. G. Taylor has purchased all of I. Smelser's sheep. Mr. Smelser is going out of the sheep business and Mr. Taylor is going into it heavier than ever.

A Rare Opportunity.

Miss Quailfe intends spending the summer in Reno, and will give instruction in instrumental and vocal music to all who desire it. Miss Quailfe is so well known as a teacher of music that it seems superfluous to even refer to it, for just as soon as it is generally known that she intends remaining here during vacation, she will have more applicants than she knows what to do with.

A GOOD MOVE.

Steps Being Taken to Have the Gates of the Tahoe Dam Closed.

There was a good attendance at the meeting held at the Courthouse last night for the purpose of taking some action regarding the closing of the gates at Tahoe. Hon. Thomas Fitch was elected Chairman of the meeting and Allen C. Bragg Secretary.

Mr. Fitch stated the object of the meeting, and gave a history of the subject since the storage question has been agitated. He said it was doubtless true that the Donner Boom Company did not intend to part with their Tahoe property, but would keep it to protect the lands of the Southern Pacific Company lying north of Reno. But he saw no reason why they should not close the gates, unless they had fear of litigation from property holders on the shores of the lake. In that event they would probably require a bond indemnifying them against any loss.

Mr. Beck thought the first thing to be ascertained was what the cause of complaint was from property holders on the lake, and advocated the appointment of a committee to visit the lake and find out just what the feeling was and the conditions of things generally. He urged that a week's work with the gates open would raise the waters of the Truckee to such a pitch that an immense amount of damage would be done, and he felt as if there was no time to lose.

General Irish said he estimated that there was now enough in the mountains to make 70 inches of water for every square mile of territory—about 180 square miles in all—that would flow into the lake yet this spring, and that we could expect a raise of 30 inches if the gates were kept closed, and that that would raise the lake five feet above low water mark. He said the damage to property around the lake would come from property holders following up the low water of the past years with their docks.

C. A. Bragg said that several years ago when the lake was up to high water mark the property holders did object to the closing of the gates, but since that time the water had been gradually receding and that to accommodate their business they had followed up the receding water with their wharves and breakwaters, and that he thought the damage would be to property built during the low stage of water.

WHAT MR. LEEKE DID NOT SAY.

There is water enough flowing to waste down the bed of the Truckee river to irrigate some 150,000 acres of desert land. These desert lands, fertilized with water and rudely cultivated will produce \$10 per acre, or \$1,500,000, which will pay interest at six per cent. per annum on \$25,000,000, and divided into lots of 40 acs each and settled in families of five persons, will make homes for 200,000 people. Therefore, in the interest of economy and to promote the general welfare of our people, these waste waters must be husbanded and economically applied. It is the interest of every land holder and every person that can make a home here that the gates in the Tahoe dam be closed.

After a lengthy discussion of the subject Senator Foley moved that a committee consisting of Messrs. Gould and Mayberry be appointed to proceed to the lake and find out the true condition of affairs and endeavor to get the owners of property on the shore to sign a petition to the Donner Boom Company to have the gates closed, and to report the result of their labor to the Board of Trade as early as possible. He also moved that the meeting request the County Commissioners to pay the expenses of the committee. It was carried and so ordered.

No further business appearing the meeting adjourned.

Was Glad of It.

DeWitt Talmage writes as follows: I was very busy one afternoon and a gentleman sent up his card, on which was written: "I must see you." I sent back word that I could not see him then, but would be at his service at 6 o'clock. But he would not be denied, and after two more declarations that his business was important I had him come up. "Now," says he, "I'm a fatalist, and I want to talk to you. I believe that when the body dies the mind dies. Some day my body will die and then I'll die. That'll be the last of me." Well," said I, "I'm glad of it."

For Sweet Charity.

A fair to raise money for charitable purposes was held not long ago at Prince Bismarck's house in Berlin, at which the great statesman and his big hunting hound were prominent figures. The Prince walked around in the plain undress uniform of a cuirassier officer, chatted pleasantly with acquaintances, and now and then bought something. Bismarck's name and articles at the principal table and other titled ladies presided over booths or tables in the different rooms.

A CASE IN POINT.

In our forefathers' days, pimples were attributed to diseased blood, and modern medicine has demonstrated that rich food does not create eruptions by fouling the blood, but regards digestion, which makes the stomach "torpid," and the circulation sluggish, and in fact causes an enfeebled action of the pores which congest or become pimples. The modern theory therefore is not to treat the blood, but the stomach and liver, and it is under this new idea, that Joy's Vegetable Sarsaparilla was conceived. It is wiping the old "blood disease" idea out of existence. A case in point: "I have had for years spells of indigestion and dyspepsia and tried nearly everything, but finally I took one of the boxes of Sarsaparilla. It caused pimples to break out on my face, which I was told was caused by the potash. Hearing that Joy's Vegetable Sarsaparilla did not contain mineral, I sent for it. The pimples disappeared and I have had no return of the old spells. It is a cure for indigestion and dyspepsia and the attendant face eruptions."

Liver Complaint—Biliousness.

The chief symptoms of this disease are depression of spirits, foul coated tongue, bad tasting mouth, disagreeable breath, dry skin, with blotches and eruptions, sallow complexion and yellow eyes, tired, aching shoulders, dull pain in right side, faintness, dizziness and irregular bowels. This complaint in all of its forms can be readily cured by taking Dr. Gunn's Improved Liver Pills as directed, and a lingering spell of sickness will often be banished by their use. Sold at 25c. a box by S. J. Hoaglinson.
